

# Maintenance Drug List

Physicians Plus Insurance Corporation allows you to get a three-month supply of a variety of prescription drugs. This helps you make fewer trips to the pharmacy to refill prescriptions that they expect to take on a regular basis. Each prescription that is filled in this way requires you to pay three copays at the time of filling that prescription. To get started, ask your doctor to write you a new prescription with the quantity needed to last three months. If you have any questions, please call Physicians Plus Pharmacy Services at (608) 260-7803 or (800) 545-5015 extension 7803.

Drug Name	Eligible Strengths	Most Common Uses
Alendronate	5, 10, 35, 40, 70 mg	Osteoporosis
Allopurinol	100, 300 mg	Gout
