Welcome to the June issue of *PlusNotes for Employers*. Use it to make your Physicians Plus health plan work for you! This month's issue includes:

- Family Fun at Green & Gold Training Camp on July 17!
- Meriter Adds Madison Pediatric Clinic Location
- Sun Safety Tips this Summer

And please, invite your employees to [subscribe to PlusNotes for Members!](#) If you prefer not to receive future issues, simply click the link at the bottom of this newsletter to unsubscribe.

### **Family Fun at Green & Gold Training Camp on July 17!**

You and your employees are invited to Physicians Plus and Meriter's [Green & Gold Training Camp](#) on Saturday, July 17 from 10 a.m.–Noon at Madison's [Henry Vilas Zoo](#). Kids ages 5–12 will "work out" and have fun with Green Bay's Donald Driver and Edgar Bennett, and 10 lucky kids will win a football personally autographed by each player. Complete the [registration form](#) in advance and bring it to the event. Hope to see you there!

### **Meriter Adds Madison Pediatric Clinic Location**

In an effort to best serve patients from a larger area, Meriter will offer pediatric primary care services at the [Meriter-McKee clinic](#) in Madison beginning in July. [Dr. George Idárraga](#) and [Dr. Dana Johnson](#) will relocate from their current location on Deming Way in Middleton to the Meriter-McKee clinic. Same-day appointments and extended hours will remain available for all pediatric patients. [Dr. Viren Bavishi](#) and [Dr. Sumita Ram](#) will continue to provide pediatric primary care at [Meriter Middleton Pediatrics](#). Appointments at either clinic location can be made by calling (608) 417-8388.

### **Sun Safety Tips this Summer**

Summer is here and that means fun outdoor activities in the sun. Please encourage your employees to follow these [Sun Safety Tips](#) to help keep them protected this summer. The sun's rays, also called ultraviolet or UV rays, can damage your skin and eyes. Short-term results of unprotected exposure to UV rays include sunburn and tanning. Long-term exposure may result in early wrinkles, skin cancer and potentially blinding eye conditions. You and your employees can find out more about skin cancer risks by taking the [GO-TO Healthy Choices](#) health risk assessment.

### **Tell Us What You Think**

Physicians Plus wants to know what you think! Send us your feedback, suggestions, and ideas for improvement. All submissions are reviewed, so please let us [know](#).
